

Student Kit Letter: Nail Technician

The Nail Technician (Certificate of Vocational Education) program will initiate students into one of the most fascinating industries in the country - Nail Technology. People with a sense of creativity, visual perception, good human relations, and communications skills will be attracted to this occupation. Students develop nail technician skills in the classroom and a simulated salon setting. The Nail Technician program provides exposure to many aspects of the industry including sterilization and sanitation, manicures, pedicures, and artificial nails.

Students are required to purchase the following items:

STUDENT KIT (see attached list)

NOTES

1. Further purchases may be required, please verify with your instructor.
2. Textbooks also have to be purchased for courses.
3. Students should meet with their instructors prior to making any purchases including used textbooks.
